MUHAMMAD HARIS

Senior Full Stack Developer

Lahore, Pakistan | iamharisdev@gmail.com | +92 317 4011082
Portfolio: portfolio-six-pi-aboafhz6wt.vercel.app | github.com/iamharisdev | linkedin.com/in/iamharisdev

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5+ years of experience building and shipping production mobile, web, desktop and AI-powered applications. Primary strength in React Native for iOS and Android, backed by Next.js/React front ends and Node.js/Express APIs on PostgreSQL, MongoDB and Firebase. Experienced across the full delivery lifecycle — UI/UX implementation, API design, real-time communication, payments, media/AR, LLM integrations (OpenAI, Anthropic) and releases to Google Play and the Apple App Store. Has led 2 associate developers, delivered 10+ production applications (9 live on the stores) and received an Engineering Excellence Award.

CORE SKILLS

Mobile & Frontend	React Native, Expo, React.js, Next.js, Ionic / Capacitor, Kotlin (Android TV), Electron, TypeScript, JavaScript
State & Data	Redux, RTK Query, Zustand, React Query, REST APIs, GraphQL, WebSockets
Backend & APIs	Node.js, Express, API design & integration, Firebase (Auth, Firestore, Realtime DB, Functions, FCM, Storage)
Databases	PostgreSQL, MySQL, MongoDB / Mongoose, SQLite, Prisma, Sequelize
AI & Media	OpenAI, Anthropic, LLM APIs, ElevenLabs, Whisper, ffmpeg, WebRTC, Banuba (AR), Imgly
Integrations	Twilio, Agora, Socket.io, OneSignal, Google Maps & Places, YouTube Data API, Opticutter, Nafath
Payments	Stripe, Apple Pay, In-App Purchases (subscriptions, coin economies, receipt validation)
Delivery & Tools	Google Play, App Store, FastLane, GitHub Actions, Git, Docker, Vercel, Netlify, Heroku, Sentry, Crashlytics, Mixpanel

PROFESSIONAL EXPERIENCE

Full Stack Developer — LUMS
Aug 2025 – Present

- Architect and deliver end-to-end web and mobile solutions across the university's digital products.
- Build responsive, accessible front ends in Next.js/React and ship cross-platform mobile features in React Native.
- Design and maintain RESTful APIs in Node.js/Express with PostgreSQL and MongoDB.
- Integrate third-party services (payments, notifications, communications) and own deployments through release.

Senior Mobile App Developer — IdeaX Limited / OutsourceNZ (NZ)
Sep 2023 – Aug 2025

- Led delivery of production React Native apps for the NZ/AU market — iSQROLL, Trova, SafeSign, Total Tint, No Yelling.
- Led 2 associate developers; owned architecture, navigation, state management, offline support and performance tuning.
- Integrated Stripe, Apple Pay, IAP, Twilio, Agora, OneSignal and Socket.io for payments, real-time chat and calls.
- Managed Google Play and App Store releases with FastLane and handled review/compliance cycles.
- **Engineering Excellence Award** — outstanding contribution to project innovation.

Mobile App Developer — Viral Square
Aug 2022 – Sep 2023

- Built cross-platform React Native apps including Memee — an AR meme generator using Banuba SDK and Imgly.
- Authored Node.js/Express REST APIs with PostgreSQL/Prisma and Firebase services.
- Implemented in-app purchases, push notifications and image/video media pipelines.

Mobile App Developer — Argon Tech Inc (Ozi Group)
Apr 2021 – Jul 2022

- Delivered ProspectX — a real-estate communication app with Twilio voice calls and Socket.io real-time chat.
- Built React Native (Redux) features and contributed to the Node.js/Express backend.
- Integrated push notifications and deep links; deployed to Google Play and the App Store.

SELECTED PROJECTS

Reelroom — AI Video Production Studio — **Desktop · Windows & macOS**

Technology: Electron, Node.js, Express, SQLite, ffmpeg, OpenAI, ElevenLabs/Azure TTS, Whisper, YouTube Data API

- Sole developer of a desktop studio that turns a YouTube URL and transcript into a 1080p long video plus 4 vertical Shorts.
- Built AI scripting, titles and thumbnails (OpenAI), multi-provider voice-over with fallback, and a durable SQLite job queue with review gates.
- Added resumable YouTube auto-upload, trend research and Autopilot, hardware encoding (NVENC/VideoToolbox), an AES-256-GCM key vault, and DMG/EXE installers via GitHub Actions.

Screen Mirror TV — Android TV App — screen-mirror-tv.web.app

Technology: Kotlin, Android TV, WebRTC, Firebase, OkHttp

- Sole developer: mirror a Mac or Windows screen to Android TV from any browser with a 6-digit code — nothing to install on the computer.
- Low-latency screen and audio streaming over WebRTC, Firebase pairing, and remotely configurable TURN relays for cross-network use.

Awaaz-e-Sehat — AI-Powered Healthcare Platform — awaazesehat.com

Technology: Next.js, Node.js, Express, Firebase, AI/LLM APIs, WhatsApp

- Owned the AI, voice and image-labelling features of a maternal-healthcare platform in Pakistan: AI triage, WhatsApp AI chat, EMR integration and analytics.

ProspectX — Real-Estate Wholesaler & Investor App — **Google Play · App Store**

Technology: React Native, Node.js, Firebase, Twilio, Socket.io, Push Notifications

- Implemented incoming/outgoing Twilio voice calls, real-time 1:1 and group chat, and push-triggered call and lead alerts.

iSQROLL — New Zealand Buy/Sell Marketplace — **Google Play**

Technology: React Native, Node.js, Firebase, Twilio, Socket.io

- Owned real-time buyer/seller chat, Twilio-backed verification and key marketplace flows.

Memee — Meme Maker with AR & Media Editing — **Google Play · App Store**

Technology: React Native, Node.js, Prisma, Firebase, Banuba SDK, Imgly

- Built the AR camera, image/video editor, tournaments with anonymous judging and an IAP coin economy; 2,000+ downloads.

No Yelling — Australian Driving-School Platform — noyelling.com.au

Technology: Next.js, Node.js

- Full stack UI/UX implementation, SEO optimisation and API integration for an Australia-wide web platform.

SpotSwap — Smart Parking — **Google Play**

Technology: React Native, Node.js, Firebase, Google Maps & Places API

- Owned the maps and location experience: real-time availability and location-based spot search and sharing.

Total Tint — Tinting-Services App

Technology: React Native, Node.js, Firebase, Opticutter APIs

- Integrated Opticutter APIs and built an image-labelling editor.

Trova · Acadify · SafeSign — **Google Play**

Technology: Ionic / Capacitor, React Native, Node.js, Firebase

- **Trova:** provider app for healthcare professionals — schedules, virtual sessions and client management.
- **Acadify:** study-abroad platform (Physics Wallah ecosystem) — university discovery, application tracking, counsellor chat.
- **SafeSign:** multilingual workplace health & safety education app for CALD workers.

EDUCATION

BS Software Engineering — Lahore Garrison University, DHA Phase VI — **2017 – 2021**

Intermediate, Computer Science — Civil Lines College, Lahore — **2015 – 2017**

Matriculation, Computer Science — Decent Public High School, Lahore — **2013 – 2015**

AWARDS & ADDITIONAL INFORMATION

- **Engineering Excellence Award** — outstanding contribution to project innovation at OutsourceNZ.
- **Leadership:** led 2 associate developers across architecture, implementation, integrations and production delivery.
- **Languages:** English (fluent), Urdu (native).
